

Status of National Reporting to SCAR

The annual report to SCAR is in the form of a table (**a template of which is available from <http://www.scar.org/members/annualreports/>**). The aim is to provide an indication of the research being undertaken (relevant to SCAR) and to provide an updated information and contact address for anyone requiring further information. **The Annual Report to SCAR should** be submitted as soon as the Antarctic field season is over and no later than 15 May, to allow 6 weeks before either the SCAR Delegates Meeting or, in intervening years, the SCAR Executive Committee meeting takes place.

The Status of national reporting for the last two field seasons (as of the beginning of July) is as follows:

Country	2006-07	2007-08
Argentina	online	online
