

## Antarctic Climate Change and the Environment Addendum and Corrections

(as of 1 December 2009)

1. The sea-level graph shown in Figure 5.19 is based on Figure 6 in Church et al., 2008, Understanding global sea levels: past, present and future. Sustainability Science, Elsevier, DOI 10.1007/s11625-008-0042-4. 14pp.
2. The reference to the possible maximum rise of sealevel of 1.4 m by 2100 comes from Rahmstorf, S., 2006, A semi-empirical approach to projecting future sea-level rises. Science Express, [www.scienceexpress.org](http://www.scienceexpress.org); 10.1126/science.1135456. 3 pages plus figures.
